

1. STRATEGY HOPE FOR TOMORROW

hope for
tomorrow

STICHTING VISION.

Stichting Hope for Tomorrow believes that all children everywhere should have the opportunity for an excellent education delivered in a safe and respectful environment which prepares them for productive and fulfilling lives. Sadly, for vast numbers of children this is far from the reality of the situation into which they have been born. We believe there is an obligation on those who have means to help those less fortunate than themselves.

STICHTING OBJECTS (Articles of Association Article 2)

2.1 The objects of the foundation are:

- a. to financially support children in specific local voluntary organizations in a number of chosen locations;
- b. to financially support individually selected orphanages in a number of chosen locations;
- c. to financially support specific local voluntary organizations in chosen locations caring for mentally handicapped children;
- d. in general, to provide supplementary financial support to selected existing voluntary groups and organizations dedicated to the education and well-being of children for whom state aid, or family (home) support, is inadequate or lacking, and
- e. to do anything which is connected to these objects.

2.2 The foundation shall seek to attain these objects by, among other things, raising and distributing financial resources.

2.3 The foundation has no profit-making purpose.
